

# Powr-Flite PULSAR

Pulsar Delta+ is the **most powerful, purpose-built portable extractor on the market.** Behold what puts it in a carpet cleaning world of its own.

Item #PE310-G15-U

## OUTSHINING THE COMPETITION

### BETTER PERFORMANCE

The Pulsar's Airwatt vacuum motor is the industry's only vacuum motor specifically built for wet pickup, providing superior waterlift and CFM for unmatched performance.

### BETTER STORAGE

Designed with the on-the-move cleaner in mind, with on-board storage for the wand, hose and cords that just can't be found in competitive models.

### BETTER RESULTS

Dual-element 3,000 Watt heater is by far the most powerful and effective on the market.

### BETTER PROTECTION

Patent-pending, sealed bearings prevent exposure to cleaning chemicals and moisture for longer motor life.

### BETTER MOBILITY

Superior mobility with larger rear wheels, dolly-inspired stair-assist design and handle-mounted loading wheels.

### BETTER SERVICEABILITY

Clam shell design and rear access door significantly reduces downtime of service and routine maintenance.
